

FUTURE WATERFRONT CHALLENGE

You're helping plan the Ulverstone waterfront for the next 20 years. What decisions should we make today to create a waterfront that works for your generation in the future?

Be creative, be bold and think about everything that makes a great place to spend time, connect and enjoy life.

KEEP

What already works well at the waterfront and should we make sure we protect?

CHANGE

What isn't working well now?
What could be improved or done differently?

CREATE

What's missing? What new spaces, activities or facilities would you like to see?

CONNECT

How could it be easier to get to the waterfront and move around once you're there?

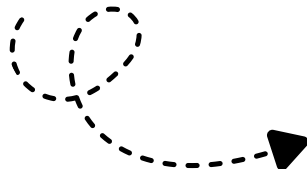

PROTECT

What natural, cultural or historic features are important to protect for the future?

IMAGINE

What would make you want to spend more time at the waterfront?

If you could tell the people designing the waterfront master plan just one thing, what would it be?

A large empty rectangular box with a dashed border, intended for a final response to the question: "If you could tell the people designing the waterfront master plan just one thing, what would it be?"
